

# Wireless Signature Capture at the Drive-Up Window

Designed to be used as a stand-alone, in a drawer or in a pneumatic tube

## *NEW Wireless LinkSign 1x5 LCD*

*Drive up and Drive thru*

- 1. Designed to be used as a stand alone, in a drawer or in a pneumatic tube.*
- 2. Fits into a wide variety of canisters.*
- 3. Open, remove, sign and then return to canister.*
- 4. Modems may be as close as 6 inches apart.*
- 5. Modem is much smaller in size then earlier wireless modems.*
- 6. Transmit up to 100 yards from the modem depending on local conditions (longer distance if using extension cable).*
- 7. Quick attach AC adapter or optional dock for battery charging.*
- 8. Communication is Direct Sequence format (Also referred to as DSSS [Direct Sequence Spread Spectrum]) and Encrypted Wi-Fi.*
- 9. Signal is encrypted and allows for easier adaptation of security protocols to DSSS standards if necessary.*
- 10. Operation of multiple LinkSign devices at a given location is feasible.*
